yet to be accomplished by electricity.
The great bridges that are being
constructed by modern travel, the
modern steamers, like floating palaces,
that are being improved every year,
so as to bridge the distance between
all these things but point to the pos-
sibilities of the future, which are call-
ing to every man who has ears to hear.
"Come up highest."

Fortunately, there is a great army
of electricians, of engineers, of scholars,
of artists, of authors and of poets who
are heedful of this cry. They are find-
ing opportunities thick as thistles for
doing something nobler than merely
becoming rich.

Be on the alert for opportunities and
you will find them crowd upon you.
Seize one and turning it to account
will bring you a dozen others. Study
the life of any successful man, in
whatever walk of life, and you will
find that the secret of his success lay
in his readiness to seize the seemingly
insignificant opportunities that come
almost unsought into every life.

RISE OF PROF. SARGENT.

Working his way through college,
Prof. Dudley A. Sargent found the op-
portunity that ultimately led to his ap-
pointment to the directorship of the
gymnasium at Harvard University. In
his year at Bowdoin College he was
given charge of the gymnasium at a
salary of \$5 a week. The gymnasium
apparatus was heavy and cumbersome,
and needed to be renewed, but the
college could not afford to do so. Young
Sargent, however, who was an enthusi-
ast in his work, began to look for
spare moments to remodel or modify
old pieces of apparatus and to invent
new ones. The excellent work he did
during his first year in the Bowdoin
gymnasium attracted the attention of
Yale University, and he was invited to
transfer his services to that institution
at a salary of \$60 a week. From
that he worked his way steadily on-
ward to his present position as a dis-
tinguished inventor of gymnastic ap-
paratus and the most eminent in-
structor in his department in this
country.

Scores of instances occur to me of
men who became eminently successful
in as many different fields by seeing
and seizing opportunities that others
would have passed by as of no account.
Space, however, forbids more than one
illustration.

Samuel M. Jones ("Golden Rule
Jones") who has twice been elected
Mayor of Toledo, O., saw his oppor-
tunity in the oil regions of Pennsylv-
ania. There could hardly be a more
discouraging outlook than that which
he met at the age of 15, without any ad-
vantages of education or training in
any calling, for he was a child of pov-
erty—he landed in Titusville with but
15 cents in his pocket and with not a
friend in the land. At the end of three
days, living, heaven only knows how,
he succeeded in finding some hun-
dred dollars in the oil fields. He then
the business, and worked at it until he
himself became an oil producer, not
only in Pennsylvania, but also in West
Virginia and Ohio. He invented im-
proved oil-well appliances and estab-
lished in Toledo the famous Acme
Sucker Roddy factory, from which he
conducted on the principle of the printed
legend posted on its walls: "Whatso-

ever ye would that men should do
unto you do ye also unto them."

DEAF, DUMB AND BLIND MAR-
VEL.

No, there are no failures in this land
because of lack of opportunity to win.
The lack is in the man, nine times out
of ten, not outside of him. The world
is all gates, all opportunities to him
who will open his eyes to see them,
who will use hands and feet and brain
to utilize them. They are lying at your
feet. You need not necessarily go away
from home to find them. Use those
within your reach; you will find them
stepping stones to greater ones. When
a deaf and dumb and blind Helen
Keller can get a college education and
make herself a marvel to scholars and
psychologists; when a Fred Douglass,
a poor slave, who did not own even
his body, could find opportunities to
educate himself, to become an editor,
a great orator, the peer of statesmen
and thinkers of the world over, who will
be ignoble enough to say: "I have no
opportunity! The great prizes of life
are all gone! There are no chances
now except for the rich!" Out with
such pessimism. This is the golden age
of opportunity, and who feels he
unto him who works and feels he
the doors.

ORISON SWETT MARDEN.

"Grace, and How to Acquire It," is dis-
cussed by W. R. C. Latson, M.D., (editor
Health Culture Magazine, New York).
A significantly interesting and prac-
tical article to appear in The Times
tomorrow.

EVERYBODY DELIGHTED.

Newbro's Herpicide Destroys the
Dandruff Germ Permanently
and Cures Baldness.

Quinine and gum and a whole lot
of other things, are pleasant to rub
on the scalp after washing it free of
dandruff, but not one preparation of
the general run cures dandruff and
restores hair. It is necessary to kill
that germ, to be permanently cured
of dandruff, and to stop falling hair.
Newbro's Herpicide will positively
destroy that germ, so that there can
be no more dandruff, and so that the
hair will grow luxuriantly. "De-
stroy the cause, and you remove the
effect."

Sold by leading druggists. Send 10c
in stamps for sample to the Herpicide
Co., Detroit, Mich.

When kidneys do not do their duty
poisons stay in the blood. Serious
troubles follow.

Doan's Kidney Pills help kidneys
to do their duty.
Fifty cents at any drug store.

Engraved Calling Cards

Invitations, Announcements, All Sizes. Card
WINDSOR & SPENCER CO., 101 S. SPRING STREET.

MY MODERN METHODS

Result in the Establishment
of Perfect Health.

My "Exact Cause" Treatment

Touches every chronic condi-
tion of man. There are no
evil after-effects.

My Experience

HELEN KELLER.

(Though deaf, dumb and blind, she has
learned to read, write, and has mastered
four languages.)

It is not enough to know whereof he spoke.
John D. Rockefeller is also quoted as
saying that he would "gladly pay a
salary of \$100,000 a year to any man
who could relieve him of even part
of the care and responsibility that his
position places upon him."

A specialist whose merit is
unapproached, never expects
his fee, no matter how small,
until he has cured his patient.

Functional Decline.

The results of my work are accom-
plished by merit alone, not by other
treat, but as I treat. This functional
decline is not a disease, but a
condition of the body, and it is easily
restored to its normal requirements, and
scientifically applied. I have succeeded
in restoring to the normal condition
of the body, and I can do the same for
you. My treatment restores and
brings back the power, nerve power,
which causes these organs to act.

There are Many Reasons Why
I Do Not Treat by Mail.

In the first place, it's all guess work. You cannot treat with any
assurance of definite results. It's left to the patient to diagnose
to treat and to guess at complications which often arise that
require the knowledge of a skilled specialist to overcome. I
make definite claims for my treatment, and positively know just
what I can do; and I have always made it a point not to guess,
but to know why I gave a treatment, and what for. I have not
right with diagnosis. I had much trouble that did not show except
in other parts of the body, but the real trouble came from the stomach, and so
when the right food, like Grape-Nuts, was given to the stomach, it quickly
got well and made good blood that cured the other ails. Name fur-
nished upon application to Postum Cereal Co., Battle Creek, Mich.

People don't realize the great
truth that the stomach and the food
are responsible in most all cases for
many diseases, and that it is more than
worthwhile to improve in health if you
will change the diet and use Grape-Nuts
three times a day.

Patients who come to the city for my treatment are furnished
rooms free, may come and go at pleasure, and have my personal
attention.

I accomplish more in one week to ten days than can
ever be accomplished by mail.

Dr. Morton,

Fourth and Broadway

312 W. Fourth St.

Thorough Cures FOR MEN'S DISEASES.

DR. O. C. JOSLEN
The Leading Specialist.

Pay Me When I've Cured You

As I Alone Cure Contracted Disorders

The cure of disease is a matter of
full understanding as to the nature
of the disorder and the action of
the remedies upon it. In most in-
stances the proper treatment is ap-
parent to the physician so skilled
as to be able to detect the exact con-
ditions underlying an ailment. An
accurate diagnosis is more than half
the cure, for he makes plain the
thing that must be done in order to
effect a cure. If the doing of the
things is a possibility, there is no
excuse for failure.

Two often disease is treated by rule,
or program, without adequate under-
standing as to the nature of the ail-
ment, and without even an attempt
to scientifically diagnose the case.
This is a practice that comes
through ignorance or carelessness,
and that has done untold harm, dis-
appointed millions of patients, and
injured public confidence in the
medical profession. I guess at work-
ing. My understanding of men's
diseases is so thorough that I have no
need to resort to guess work. To
this one class of ailments I have de-
voted my entire attention for six-
teen years.

Varicosele

Varicosele interferes with local circulation and the process
of waste and repair throughout the organs involved. When ap-
plied just as early as possible, it is a powerful remedy, and may even
result in a permanent cure of the disease. I have treated many
cases in one week. My method is absolutely painless, no op-
eration is involved and there need be no detention from
business.

Stricture.

My treatment for stricture removes the necessity for surgical
operation, even in severe cases of long standing. I do no cutting
or distending. No other physician employs my method or even
coming this disorder, so the service I offer you is original and
distinctive. Do not give up hope because others have failed. I
will cure you and the cure will be a prompt and painless one.

Piles.

I have not failed to cure every case of Piles I have treated—
even in very severe cases or those of long standing; you can come
to me expecting a full and permanent cure.

You are at liberty to call upon me in personal consultation,
or to write regarding your case. I will gladly
render such assistance as I can in the way of helpful
advice.

My colored chart of the male anatomy is mailed
free upon request. Interesting and instructive.

DR. O. C. JOSLEN

Third and Main Sts., Los Angeles, Cal.

Scientific Treatment. Honest Work. Radical Cures.

Our ability to treat diseases of men correctly is
unquestioned. It has been proven by our con-
tinued success in curing where others have
failed. I never treat wrongly. We never
give a partially correct treatment. Our treat-
ment is always correct—by that we mean it is
based on thoroughly scientific methods, or is on
the line of proven treatment as known to
modern medical science. And yet, with all our
knowledge of what to do, how to do it and when
to do it, we do not claim that we are the su-
periors of all others. Other physicians in the
large eastern cities who have made a specialty
of Genito-Urinary troubles have accomplished
as much—but we do put in our modest claim to
superiority on the Pacific Coast, and we assert
without fear of contradiction that no man on the
coast has so justly earned his unquestioned re-
putation for "SUCCESS" as has "Dr. Harrison."
His successful work bears out this statement. We are paying no money
to professional ad writers for smooth, alluring advertisements. We write
what we have to say ourselves, and we always mean what we say.
The number of years of our practice are just what we claim—our diplomas
certifying to our graduation in medicine, law, and surgery, are in our office. They are our
own, bearing our own name, and date of graduation. We practice no deceit
in any particular. If we accept a case for treatment and promise a cure,
that promise is made good. Our thorough knowledge of medicine and
disease enables us to at once give correct diagnosis of trouble and length of
time it will take to cure. Our work is done systematically and it is
thorough from the beginning to the end in every particular. Each and
every case receives proper care. The results speak for themselves.

Our Home Treatment is Emphatically a Success.

Men who are not physicians and who are failures themselves in every particular
will tell you that "mail treatment" is a failure. Why do they say
this? Simply because they know nothing of medicine or of how to judge a
case by "symptoms." No physician in this enlightened age, who is up-to-
date, who keeps abreast with the times in all medical and surgical work,
will admit he cannot treat cases through the mail. Men who make such
acknowledgment, either publicly or privately, are probably not physicians,
and who in no sense understand the science of medicine. We cordially and
especially invite those living at a distance and who cannot call at office, to
write us plainly of your case. We have no difficulty of arriving at the
trouble and its cause, and we know just what to do and how to treat all
cases that come to us.

Blood Disorders.

It is almost beyond belief that so many men, old, middle-aged and young, are
suffering from some form of blood disease, either inherited or acquired. Of course
the latter cause largely predominates. It is a deplorable fact that comparatively few
of them take proper steps to obtain relief and a perfect cure. The patient medicine
taken is a cure to making—but no worse, not so damnable a cure, as the as-
serting false who take advantage of the fact that he can write an ad., or pay to
have one written, which is scattered broadcast and read by thousands who believe
him to be a doctor, when in truth he is a quack, a charlatan, who has no knowledge
whatever of medicine, of disease, or of the first principles of how to treat the simplest
of troubles. Such men are a curse to humanity, and the law should meet out to them
their just deserts. We have hundreds of men, suffering with blood disorders, com-
ing to us for help, who have been the victims of false pat medicine, or men who
are nothing but pretenders. To such men we address ourselves. If you are suffering
from blood disorder, from poor treatment or no treatment at all, we cordially
ask you to call and see us. We will show you what and who we are; let us prove to you
that we are regularly graduated physicians and that we are experts in "disease of
blood." We have no superiors. Convince yourselves of our reliability, our worth and
skill. Consultation is always free.

Varicosele.

Time and again we have spoken of this trouble, its seriousness, its harmful effect
on the whole system, its specially distressing effect on nerve constitution, and the
great necessity of having this trouble treated right. In proof of our ability to give
relief and permanent cure, we offer you a special remedy, which we call "Harrison's"
afflicted with varicosele and who wishes a cure) to dozens of men right here in Los
Angeles, that we have cured these cursed cancerous, almost unbearable swellings
after many advertising to cure varicoseles cannot truthfully and honestly make this
claim. Why? Because we cannot show you a single man who has cured, but they
show you a number of men who show you most reliable men they have cured.
We will GUARANTEE PERMANENT CURE OF VARICOSELE.
We give special attention to and cure not only Varicosele and blood disorders; also, Weakness in any
form, Hemorrhoids, Piles and Pains, Contracted Disorders and Bladder troubles. Send for
our booklet on Diseases of Men with colored chart—sent free on request.

BLOOD AND SKIN DISEASES

Doctor Harrison

Scientific Treatment. Honest Work. Radical Cures.

Our ability to treat diseases of men correctly is
unquestioned. It has been proven by our con-
tinued success in curing where others have
failed. I never treat wrongly. We never
give a partially correct treatment. Our treat-
ment is always correct—by that we mean it is
based on thoroughly scientific methods, or is on
the line of proven treatment as known to
modern medical science. And yet, with all our
knowledge of what to do, how to do it and when
to do it, we do not claim that we are the su-
periors of all others. Other physicians in the
large eastern cities who have made a specialty
of Genito-Urinary troubles have accomplished
as much—but we do put in our modest claim to
superiority on the Pacific Coast, and we assert
without fear of contradiction that no man on the
coast has so justly earned his unquestioned re-
putation for "SUCCESS" as has "Dr. Harrison."
His successful work bears out this statement. We are paying no money
to professional ad writers for smooth, alluring advertisements. We write

**FUGITIVE MAY
HAVE SAILED.**

**Supposed Slayer of Sowards
Seen at San Pedro.**

**Only Trace Yet Found of the
Fleeing "Martin."**

**Coolly Remained in City Over
Night After Murder Was
Committed.**

**The alleged murderer of J. P.
Sowards is supposed to have left
San Pedro Monday on one of
the numerous passenger and
freight vessels that sail from
the port on that day for San
Francisco and way ports and
may be on the ocean somewhere
between here and the northern
city.**

**"Martin," whose true name is
Martin E. Cox, is said to have
worked in San Pedro several
months ago as a barber, being
employed by Harry Russell. He
was known as "Handsome
Harry" because of his good
looks.**

**Stanley Ohler, ticket agent
for a steamship company at
San Pedro, is quite positive the
man he saw Monday was
"Martin," who was accom-
panied by two men who ap-
peared to be drunk, although
"Martin" seemed to be sober.**

**Three or four passenger and
freight vessels left San Pedro
during Monday afternoon and
evening for San Francisco and
intervening points, and though
it cannot be learned that "Mar-
tin" bought a ticket, it is be-
lieved that he boarded one of
the boats.**

**"Martin" was seen in San Pe-
dro last Thursday with another
man, selling cash registers.**

**The police fish net was cast far
and wide yesterday for "Martin,"
the fleeing suspect, but, though much
was learned, no trace was**

**Whether he is still in hiding in Los
Angeles or has sped by train or boat
to some distant point, no one
knows. Telegraphic descriptions
were sent to San Francisco and all
cities of importance in the United
States, and every city, being
let within a wide radius of Los
Angeles was communicated with by tele-
phone, but nothing was learned of
the fugitive.**

**"Martin's" identity was established
fully yesterday by relatives who are
in Los Angeles for the winter,
who did not know he was here until
they read his description in connection
with the murder and recognized him
as Martin E. Cox of Fairmont, Ind.,
the son of a farmer of that place and
the husband of a woman who has de-
serted four years ago, leaving her with
a small child.**

**These relatives say that Cox's father
is an estimable man, but that the son
is a scapegrace, and has been involved
in difficulty before. He is accused of
forgery in Fairmont, and left there on
that account. Since then he has been
in New York, Chicago and other east-
ern cities and just before coming to
Los Angeles last fall he was in San
Francisco for a few weeks.**

**One important link establishing the
departure of Cox from the city, and
the expressman who moved the
trunk of the alleged murderer from
the Main street house, where he was
lodged, was committed to the Willard
lodging-house at No. 223 1/2 South
Spring street, and who on Saturday
morning took Cox's trunk from the
place. A statement from this man
might lead to the discovery of the
route he took in leaving the city. The
expressman had not been located late
last night.**

SAW HIM AFTER MURDER.
The first person known to have seen
Cox in Los Angeles is Oscar Boyce,
restaurant waiter with whom the al-
leged murderer slept Friday night,
after the murder was committed.

**Boyce had a Willard
lodging-house and works in a Broad-
way restaurant. He has known Cox
slightly for some time, he says, but
was not intimate with him and
claims to know nothing of his
movements.**

**Never knew "Martin," until I met
him in Los Angeles several months
ago," said Boyce last night, "and my
acquaintance with him was not very
strong. I was quite surprised, there-
fore, to meet him a little after 8 o'clock
Friday evening at the foot of the
stairway to the Willard House, and
to have him tell me that he had sent
his trunk, and that of Miss Larison,
to my room during the afternoon. He
asked me if he might stay with me all
night, and I granted the permission. I
left him soon after 8 o'clock and went
out with a friend, but I do not know
where he went. When I returned to
the Willard about 11 o'clock I found
"Martin" at the bottom of the stairs,
and we went together to my room.
He did not appear at all excited,
but talked very little with me that
night. He said he was going away
Saturday morning, and asked me
to set my alarm clock for 6:30
o'clock, which I did. He got up at
that time and went away, but I re-
mained in bed. At 7 o'clock a man
called and told me that Cox had
left that of the bottom of the stairs,
and I do not know where he went."**

**Disclosures that came to the police
yesterday show that Cox had urgent
reasons for wishing to leave the city,
and these, it is thought, may have led
him to commit the crime of which he
is accused.**

**Two women with whom he had been
living confessed that they are about
to become mothers, and that Cox is
the author of their disgrace. One of
the women is Miss Larison; the name
of the other has not been made pub-
lic. Each claims to have been deluded
with the promise of marriage, and
both seem anxious to have the man**

apprehended, although appearing to
love him greatly. Cox's mistress, has no
knowledge of the murder. The police
are satisfied on this point, and they
are not holding the girl. She has
given all the information in her pos-
session, it is believed, as to her rela-
tion with Cox and as to his moti-
vements, but so far as the murder is
concerned, she seems to know nothing.

MISS LARISON'S STORY.
"I met Harry Martin last September
at a lodging-house on Broadway, and
he told me his name was Harry. I
lived with him several months, al-
though we were not married. I
since about the first of January our
place had been at No. 721 South Main
street. We were together all the
time, day and night, after he sold his
place and moved to a new one. I
lived with him until he was killed. I
do not know how he obtained his money.
He always seemed to have plenty of cash,
and he spent a great deal in entertain-
ing me."

**"The last time I saw him," said Miss
Larison, "was at 1 o'clock Friday
afternoon at the corner of Ninth and
Main streets. He had been coaxing
me to go to my home at Ventura for
a while, and he had been waiting for
me. I told him it was too quiet there,
and that I would be lonesome without him.
He said he would come with me, and
I finally agreed to go with him. We
took the 3 o'clock train and returned when
he sent for me."**

**"I do not know anything about Mr.
Sowards, and it does not seem possi-
ble that Harry could have killed him.
He never seemed like that kind of
man."**

DETECTIVE'S DESCRIPTION.
The following description of Cox
was prepared by Detective
William J. Quinn, alias E. E. Martin,
Fairmont, Ind., aged 29; looks younger;
tall, medium build; dark, medium
complexion, slightly sandy; round,
smooth-shaven face; heavy jaw;
dark, wavy hair; eyes, gold; nose,
straight; mouth, full; lips, thin;
or prominent gold filling in one right
front upper tooth; erect and quick
in movement, and every city, being
let within a wide radius of Los
Angeles was communicated with by tele-
phone, but nothing was learned of
the fugitive.

**"Martin's" identity was established
fully yesterday by relatives who are
in Los Angeles for the winter,
who did not know he was here until
they read his description in connection
with the murder and recognized him
as Martin E. Cox of Fairmont, Ind.,
the son of a farmer of that place and
the husband of a woman who has de-
serted four years ago, leaving her with
a small child.**

**These relatives say that Cox's father
is an estimable man, but that the son
is a scapegrace, and has been involved
in difficulty before. He is accused of
forgery in Fairmont, and left there on
that account. Since then he has been
in New York, Chicago and other east-
ern cities and just before coming to
Los Angeles last fall he was in San
Francisco for a few weeks.**

**One important link establishing the
departure of Cox from the city, and
the expressman who moved the
trunk of the alleged murderer from
the Main street house, where he was
lodged, was committed to the Willard
lodging-house at No. 223 1/2 South
Spring street, and who on Saturday
morning took Cox's trunk from the
place. A statement from this man
might lead to the discovery of the
route he took in leaving the city. The
expressman had not been located late
last night.**

**MEASURING
THE WATERS.**

**Government Hydrographers
Getting Very Expert.**

**Device Invented for Gauging Un-
derground Flow**

**San Gabriel River 'Booming and
Pleaty of Moisture in
Other Streams.**

**Government hydrographers are get-
ting so expert that they not only gauge
the waters flowing on the surface of
the earth, but the waters under the
earth. An apparatus to measure the
velocity of underground streams has
been experimented with in the nar-
rows of the Los Angeles River during
the last three months, with satisfac-
tory results.**

**Homer Hamlin, formerly of the City
Engineer's office, under the Olmstead
administration, now in the government
employ under Hydrographer J. B. Lip-
pincott, has lately been placed in
charge in this section of a new de-
partment of hydrographic work, called
hydrology, the object of which is the
study of underground waters, their
application and movement and practical
application to purposes of irrigation,
etc.**

HELPING SANTA BARBARA.
Lately the hydrographers have been
doing a good deal of work to help
Santa Barbara to find an adequate
water supply to meet its growing re-
quirements. The mountains back of
the city have been carefully explored
for the establishment of a storage re-
servoir system. Three suitable reservoir
sites have been found, and an exten-
sive piece of triangulation has been
run to determine the length of the
tunnels that will be required to connect
the proposed reservoirs with the coast.
Some expensive tunneling will be ne-
cessary to carry out the project.

**Engineer Lippincott says with State
cooperation the government will be
able to do a great deal more hydro-
graphic work in this State than is now
being accomplished. A bill authoriz-
ing such cooperation is now before the
Legislature and has been approved by
the Assembly committee to which it
was referred, with some slight modifi-
cations.**

SAN GABRIEL BOOMING.
The rainfall in the San Gabriel
watershed appears to have been par-
ticularly heavy, and that stream has
been booming since the middle of last
week. The river reached its highest
point for the season on January 28,
when, according to the government
report, the flow approximated 160,000
cubic feet per second. Since that time
and an ebb and flow has been main-
tained, the flow which is rather an
unusual occurrence for any of the
Southern California streams, since it
is actually collected in a body of water
and irrigation purposes. On January
29 an official measurement showed that
25,000 inches were issuing from the
cañon.

**The government figures for last Sun-
day's storm are not yet available, but
the San Gabriel Electric Company has
several observation stations at which
measurements were taken. The com-
pany's rain gauge at the head of the
eight miles above the mouth of the
cañon, showed a precipitation of 5.50
inches for the storm, which ended last
Thursday, and 1.12 inches for Sunday's
storm. On the 25th, 2 1/4 inches fell in
the head of the cañon. The downpour
was of the nature of a cloudburst, but
not a dollar's worth of damage was
done by the electric company's pipe
line or electric lines. Debris choked up
the intake of the power canal for a few
hours, causing a temporary shortage
of electric light, but otherwise the
company suffered not the slightest in-
convenience as a result of the storm.**

**At 4 o'clock yesterday morning the
San Gabriel Electric Company had a
flow of 8100 inches per second. At 4 p.m. yester-
day it registered 9700 inches. The
capacity of the power canal is 3200
inches, and the remainder of the water
continues its way toward the
ocean, or is taken out by irrigation
ditches farther down stream. The San
Gabriel company also has rain and
stream-gauging stations at several
points on the upper San Gabriel
branches and on San Antonio Creek,
but none of these gauges have been
reached by the storm, and have not
yet reached the company's office in Los
Angeles.**

OUT REDLANDS WAY.
Mill Creek and the Santa Ana River,
the principal streams from which the
Edison Electric Company derives its
power, and which furnish irrigation
for a large territory, are not much
above the normal stage for this time
of year, but the snowfall in the moun-
tains, which they have their source,
is quite heavy, and will result in a
great deal of moisture when the snow
melts.

**The secretary of the Riverside Water
Company reported yesterday that the
late rains had not raised the streams
much thereabouts, but the ground was
well soaked, and there was plenty of
snow in the mountains, assuring more
moisture. That portion of the River-
side's water supply is derived from
artesian wells, some of which are now
capped, but which are expected to
yield abundantly when they are un-
capped next summer.**

**W. H. Giffens, receiver of the Bear
Valley Irrigation Company, reported
yesterday that the telephone line to
the Bear Valley dam was down, and
that it was impossible to get informa-
tion regarding conditions in the valley,
but he said there had undoubtedly
been a heavy fall of snow in that re-
gion, and he felt sure that there would
be an abundant supply of water for
next summer.**

**The water in none of the streams
east of the San Gabriel has reached
the stage of this season, and as the
snow usually does not melt rapidly, it
is doubtful whether there will be any
damage by food, unless it should melt
and become a great deal faster than
it has been thus far this winter.**

PROMISING OUTLOOK.
The conditions in the mountains yester-
day afternoon were favorable for
more rain and snow, and the precipita-
tion which began in this city yester-
day evening is supposed to have
been general in the foothills and moun-
tains.

**The rainfall in the San Fernando
Valley has been considerably heavier
this season than in the immediate
vicinity of Los Angeles, and some of
the streams flowing into the Los An-
geles River have been at flood height
for the best part of a week. A great
deal of this flood water has been ab-**

sorbed by the gravel beds in the San
Fernando Valley from which the city
of Los Angeles derives its water sup-
ply.

**All signs point to a prosperous season
in Southern California so far as water
can make it so, and it cannot be gain-
said that water is one of the chief
aids on the staff of Gen. Prosperity in
this or any other land.**

WETNESS ONCE MORE.
The cold wave that has prevailed in
Los Angeles for the past three days
gave way last night to a light rain
that began falling at 10 o'clock, and
that increased to a heavy fall before
midnight. It rained yesterday after-
noon and San Luis Obispo. De-
spite the cold, no damage of conse-
quence was suffered by the fruit-
growing interests, oranges in most
places being immune because of their
ripeness, while in some instances the
cold proved an effective check to puff-
blow from the frost of cold weather.
In the coldest regions prevented serious
damage either to young trees or
fruit. In some parts of Orange
county there was white frost with
the mercury at 30 at Fullerton, and
there was a light frost in San Diego
county. Other readings of the thermometer
were: San Bernardino, and Riverside,
24; Redlands, 23; Azusa, 20.

**Bakersfield reported light rain fall-
ing at 8 o'clock last night, and from
Santa Barbara comes a report of the
strangest season the county has experi-
enced, snow falling in the back
mountain region of the northern sec-
tion of the county. The snow in some
localities is so heavy that trees have
broken under the weight. The rainfall
in that county thus far this
season is nearly eleven inches.**

**UNIVERSITY ENDOWMENT
ACTUALLY COLLECTED.**

**QUARTER OF A MILLION FOR
METHODIST COLLEGE.**

**Great Rejoicings at Opening of the
Second Semester—Preparations for an
Elaborate Banquet When Bishop
Hamilton Returns—New Buildings
Next.**

**A glorious day for the University of
Southern California was yesterday.
The opening of the second semester,
which was celebrated at the College
of Liberal Arts, with prayer and song
and an address by Rev. J. L. Piner,
Piner, will mark an epoch in the his-
tory of the Methodist institution, for
the \$200,000 endowment fund has been
actually collected, and placed in the
hands of the board of trustees.**

**Moreover, \$200,000 is probably the
most considerable sum of the actual value
of the endowment fund, and there are
many who estimate its worth at not
less than a quarter of a million.**

**The Hough block is cited as an ex-
ample. This property was appraised
by the trustees of the Hough estate,
at the time Mrs. Hough made her offer
to the University, at \$40,000. The trust-
ees, however, have received assur-
ance by a number of real estate men
that the property can be readily sold
for \$60,000. In fact, it is now paying
good dividends on an investment of
that amount.**

**It will be remembered that Mrs.
Hough promised to give \$40,000 to the
college, provided the college would
raise the balance of a \$200,000 endow-
ment. The \$160,000 secured by the col-**

PEON MAKES THREATS.
Joe Escovar, a villainous-looking
peon, was caught by Officer Leon with

rested in the Police Court as drunk
yesterday.

**His threats against the officer were
of the most bloodthirsty type, when
he was taken into custody.**

**"If just want to see what American
blood looks like," he declared, "I'll
cut you up till you'll only be fit for dog
food."**

**He was sentenced by Justice Chan-
bers to thirty days on the chain gang.**

**large trustees contains many pieces of
realty.**
The trustees of the Hough estate
acted as the sole judges of the value
at which this realty should be ap-
praised in figuring the share the Uni-
versity people were contributing to
make up the endowment. In every
case their estimate was made below the
market value of the property, so it
seems probable that the real value of
the endowment is not far from \$250,-
000.

**The success of the college trustees in
collecting their subscriptions has been
remarkable. Less than 1 per cent of
the subscriptions were found to be
uncollectable, and this amount and
some in excess was quickly raised.**

**Now a new campaign is on. Already,
Field Agent T. C. Miller is out can-
vassing for a new enterprise. This
time, the trustees are directing their
attention to new buildings. Plans are
on foot for the founding of a gymna-
sium building, a library building and
a science building. The need of these
new structures is keenly felt by every
member of the board, and the work
with which to erect them are being
solicited with great earnestness.**

**A celebration is planned in honor
of the raising of the endowment fund.
A committee from the board of trust-
ees has been appointed to have sole
charge of arranging for the affair,
which will come off when Bishop Ham-
ilton again visits this city.**

**If present plans do not miscarry,
the festivities will take the form of a
banquet at one of the finest hotels. It
will be the most elaborate function of
its kind ever given by the University.**

**Even this is not the end of the Uni-
versity's prosperity. A few days ago,
an attorney representing a certain
church, requested the board of trust-
ees to put a price on the University's
"Simpson Auditorium," intimating
that he could make a good offer. After
some deliberation, the board voted
unanimously not to sell the property
at any price. The Auditorium is
bringing in an excellent income on the
money invested, and a gradual increase
in its value was considered as certain;
furthermore, the college people are
anxious to retain a foothold in the
heart of the city.**

**The exercises at the chapel yesterday
were well attended by the students,
many visitors were also present, and
there was enthusiasm galore. Rev.
Dr. J. L. Piner was the orator of the
day. "College Life" was his theme,
and he handled it in his characteristic
style.**

registered for the new semester, and
nearly all the old students have re-

ANNUAL BANQUET.
Chamber of Commerce Will Feed
and Felicitate Upon Successful Past
and Bright Future.

**The Chamber of Commerce was busy
yesterday sending out the announce-
ments for the annual banquet, which
will be held on Saturday evening, Feb-
ruary 21, at Turn-Halle.**

**Everything is being done by the com-
mittee to make it a great success, and
the fact that the change in a plate
would seem to indicate that so far as
the menu is concerned, there will be
nothing wanting. Each member has
been asked to bring a contribution to

bag.**

**The committee is A. B. Cain, L. P.
Vetter, R. H. Howell, Frank P. Jones**

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

Mayor Snyder's Water Commission was confirmed by the Council yesterday. Action on the civil-service appointments was deferred until next Monday.

Chief Elton was re-elected for the second time in one month by the Police Commission yesterday morning. Building Superintendent Julius Krause starts the Rialto with a blue uniform.

Talk of increasing the saloon and restaurant-liquor license tax. Salt Lake Railroad said to be laying track on a public street.

Council will try to sublet the public market building at Third street and Central avenue.

Dr. J. W. Trueworthy was elected president of the library board and Miss Jones was re-elected librarian.

John M. Miller, Esq., was charged with fraud in a suit brought yesterday by his former law partners, H. C. Brown and D. P. Hatch.

The Little Jap girl, rescued by the police, have been put in the custody of the Sheriff by order of Judge Tamm.

AT THE CITY HALL.

COUNCIL CONFIRMS THE WATER COMMISSIONERS.

ACTION ON CIVIL SERVICE BOARD AGAIN DEFERRED.

Pressure Brought to Bear to Force the Approval of Charles Willard by the Council—Six Republican Members Declare They Will Stand by Their Declaration.

Pressure is being brought to bear to force the Council to confirm the appointment of C. D. Willard as a Civil Service Commissioner. The lobby at work yesterday was so far successful as to leave the entire question over until next Monday. Those Councilmen on whom the hardest pressure was brought yesterday stoutly assert that they do not now intend to "move down the bank."

All the routine business before the Board of Water Commissioners having been transacted there was nothing to prevent the confirmation of the Water Commission as named by Mayor Snyder. On motion of Davenport the board was confirmed as soon as the Council met.

Then Nofziger moved to put over the confirmation of the Civil Service Commission until Monday, and it was so ordered. Kern and Farish voted against the motion, however. It is said that the vote on Willard was a strict party expression. In caucus the six Republicans members decided to stand out against his confirmation on the ground that he is not a fit person to serve on the commission.

Expressions of regret are heard on every side because Hon. Herman Silver, co-president of the City Council, was not retained at the head of the Water Commission. Mr. Silver devoted his entire energy to organizing the municipal department, and for six months of his term received only a nominal compensation, amounting to about \$100 a month. In recognition of his services the Council finally voted him a salary of \$150 a month. This action was a complete surprise to Mr. Silver, and not until he had assured himself that every member of the Council felt that he deserved it would he accept the proffered compensation.

After Mr. Silver had done so much to build up the department, and put it on a sound basis, he was unceremoniously dropped. Mayor Snyder states that he was led to appoint another man on account of Mr. Silver's advanced years. Teh Mayor also says that he will demand that the office of the water department be located on Marchessault street, and this he was informed was not agreeable to Mr. Silver.

SALT LAKE TRACK.

A haughty don, who looked as though he had just stepped out of a book about old Madrid, brought word to the Street Superintendent's office yesterday that the Salt Lake Railway Company had taken possession of Myers street, between First and Alameda streets, just east of the river. An investigation was at once made. Deputy City Attorney Goudge conferred with the attorneys for the railway company, and also with the engineer. The railway officials stated that they were laying a track on their own property. The haughty don maintained that the track was twelve feet in the street.

Late last night Street Superintendent Warden visited the scene and the track laying. It is probable that a survey will be made of the street, which is entirely unimproved.

The difficulty will undoubtedly be adjusted amicably as soon as the street lines are established by a survey.

FALSE ALARMS.

MISCELLANEOUS ITEMS.

Satisfaction is expressed by fire department officials at the introduction of a bill in the State Senate by Senator Fred M. Smith, making it a misdemeanor to turn in a false fire alarm. Under this bill the minimum penalty is one year in the County Jail. Fond parents will now begin a slipper campaign to keep Young America out of jail. Better spank Willie if he fools with the fire-alarm apparatus again. One year is a long time.

Over one thousand amendments, aggregating \$60,000, were passed by the Council last Monday. That's a long stride toward the \$100,000 deficit.

On motion of Farish, President Bowen of the Council yesterday appointed Farish, McAlister and Nofziger a committee of three to confer with the Board of Health about quarters for the health department.

NAME THE CHIEF.

Charles Elton was re-elected Chief of Police at the first session of the new Police Commission yesterday morning. Ferd Rule, O. J. Lang and James Keeney, assisted Mayor Snyder in the exercise. A. P. Maginnis was absent. "It's not often that a man is elected to an office like yours twice in one month," said Mayor Snyder, when the commission had voted to retain the Chief.

"I was just thinking of that," replied Chief Elton, "but I thought perhaps I should not mention it."

"Well, I guess I must share the honor," said Mayor Snyder.

of the Chief," said Keeney, with a laugh. "I've also been elected twice in one month to this office."

Commissioner Rule made the motion to retain the Chief. On motion of Mayor Snyder the board adopted the rules of the old board.

It was decided to inspect the City Jail some day this week Mayor Snyder believes that some steps should be taken at once to build a new City Jail building. The subject was treated at some length in the Mayor's message to the Council, and it is probable that the new Police Commission will make some further recommendation. At present the jail building is overcrowded, and it has been suggested that the old building be taken for a receiving hospital and health department as soon as new quarters can be provided for the police department.

The first step toward securing a new jail will be the submission of a bond issue to popular vote, and it is not unlikely that the new Police Commission will secure estimates of the probable cost of such a jail structure as the city needs upon which to base a recommendation that a special bond election be called.

Routine business was quickly dispatched by the board yesterday. Korner & Longman were granted a transfer of the restaurant liquor license at No. 219 West Third street from Robert Gordon. H. L. Knicker was granted a transfer of the saloon license at No. 219 West Third street from P. B. Roy. Caranese & Paster were granted a transfer of the saloon license at No. 219 West Third street from William White.

T. S. Petrie of the Vernon district and Eugene Carberry, who works at the Santa Fe depot, were appointed special policemen without pay from the city.

Assistant Oil Inspector Dwight Purpo was appointed a regular policeman without pay as a special policeman.

The following applications were referred to the Chief for a report: W. W. Shanahan, transfer of restaurant liquor license at No. 117 South Main street from H. S. Kneeder; A. L. Humphreys, restaurant liquor license at No. 120 West Fourth street; Wood street; Henry Van Hee, for appointment as special policeman.

NEW UNIFORM.

KRAUSE'S PINK REGALIA.

Contractors, builders, architects and common citizens were startled by the appearance of a new star in the official firmament yesterday. It was Julius Krause in his new uniform.

As the Building Superintendent came down the Broadway Rialto yesterday he was greeted with noisy and joyous acclaim. The newspapers thought a second edition of the Chief of Police had appeared on the street.

"Gee, just look at them glad rags," said one small urchin.

"He must be der main guy, sure," came from another youngster.

"Hey! Stop him! Stop those brass buttons," cried an acquaintance, but Krause only waved his hand and continued the triumphant march to the City Hall.

"Sous," Krause, promptly named him "Sous."

Just why Julius Krause, Building Superintendent, is now wearing a uniform is a question that has been asked by many.

It all happened at the "round table" in the Imperial restaurant, where a lot of congenial spirits are wont to congregate. Some one suggested that the uniform ought to have a uniform.

"I'll give you \$10 if necessary," said Carl Leonard.

And so it was that the uniform passed around the table enough money had been subscribed to buy a uniform.

"Well, if you gentlemen will buy the uniform I'll wear it," said Krause, in a spirit of banter.

And it came to pass that Krause was named by or for his new uniform. The Building Superintendent could not be bluffed, and the new uniform in the regalia yesterday, the wonder and admiration of half the town.

The uniform is of navy blue, and the buttons are cut high in the neck. Six large resplendent brass buttons adorn the front of the coat. The letters "L.B.S." in gold are in gold on the breast above the vest of the military cap, and on the collar of the blouse. Three gold bands encircle each sleeve at the wrist, and the arm of the blouse is a gilt square of generous size with a plumb pendant from the hinge.

Julius—everybody calls him "Julius"—says that some service as well as amusement will come from his new uniform. He is often obliged to go to places where accidents occur, and has trouble in securing admission inside the ropes.

Fourth and Spring streets Julius had a fight to reach the scene, and was nearly felled by a big man in the crowd who landed a fine uppercut on his chin. Nothing of the kind will happen now that he has the new uniform. Everything will be before it.

About the hardest joke on the Building Superintendent came yesterday as he was walking down the street with one of the Police Commissioners. A newsboy at the corner marked him, and his eyes opened wide with wonder.

"See, we do yer kin, Casey? Is der guy a convict?"

Building Inspector Krause has appointed T. Frank McGrath, architect, as his assistant.

LIQUOR LICENSE.

DISCUSSION WAXES WARM.

Consideration of a license ordinance still occupies the attention of the City Fathers at such moments as they can devote to quiet meditation. Some plan to meet the expected deficit of \$100,000 must be devised, say the members of the Finance Committee.

In discussing the question yesterday an influential member of the Council said that he believes an ordinance will be passed increasing the saloon license to \$50 a month, the restaurant liquor license to \$50 a month, the wholesale and druggists' liquor license to \$25 a month.

If such an ordinance is presented in the Council there will be music in the air for several days at least. Councilmen, mindful of the wrath to come, refuse to be quoted but they do not doubt that something of the kind is seriously contemplated. Whether the liquor men have sought a strong control over the present Council as to prevent the presentation of an ordinance putting higher license on the liquor traffic remains to be seen.

MARKET LEASE.

COUNCIL WILL SUBLET.

Councilman Kern is determined to stop the drain on the city treasury caused by the maintenance of the so-called public market at Third street and Central avenue. To date the market has cost the city about \$6000.

On Monday the Council directed the City Clerk to advertise for bids to lease portions of the market building. Yesterday members of the City Council committee of three to confer with the Board of Health about quarters for the health department.

On Monday the Council directed the City Clerk to advertise for bids to lease portions of the market building. Yesterday members of the City Council committee of three to confer with the Board of Health about quarters for the health department.

lease, and it was decided that the market building could be sublet for a year, provided one stall is retained for market purposes.

Since the motion of the Council ordered the removal of the market building from Ninth and Los Angeles streets, the total gross receipts have amounted to \$400.

LIBRARY BOARD.

TRUEWORTHY FOR PRESIDENT.

Last night the new board of directors of the Public Library met and organized by electing Dr. J. W. Trueworthy as president. All the members of the board were present.

Dr. Trueworthy was persuaded with some difficulty by Director Dockweiler to accept the appointment on the library board, as Mayor Snyder offered him an appointment on the Board of Health. Dr. Trueworthy was first inclined to accept the nomination on the Health Board, but as Mayor Snyder offered him his choice of the two positions, he finally yielded to the importunities of his friends and recommended to the board that a special bond election be called.

TOOK A STRAW VOTE.

Interesting Experiment in a Restaurant.

An advertising agent, representing a prominent New York business, while on a western trip, was dining one evening in a Pittsburgh restaurant.

While waiting for his order he glanced over his newspaper and noticed the advertisement of a well-known dyspepsia preparation, Stuart's Dyspepsia Tablets; as he himself was a regular user of the tablets he began speculating as to how many of the other traveling men in the dining-room were also friends of the popular remedy for indigestion.

He says: "I counted twenty-three men at the tables and in the hotel office I took the trouble to interview them and was surprised to learn that nine of the twenty-three made a practice of taking one or two of Stuart's Dyspepsia Tablets after each meal."

"One of them told me he had suffered so much from stomach trouble that at one time he had been obliged to quit the road, but since using Stuart's Dyspepsia Tablets he had been entirely free from indigestion, but continued their use, especially while traveling, on account of irregularity in meals and because, like all traveling men, he was often obliged to eat what he could get and not always what he wanted."

"Another, who looked the picture of health, said he never ate a meal without taking a Stuart Tablet afterward because he could eat what he pleased and when

THE ORANGE MARKET.

Special and Authentic Quotations by telegraph.

NEW YORK AVERAGE PRICES.

BUSINESS.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES, Los Angeles, Feb. 3, 1903.

FINANCIAL.

BANK CLEARINGS. The clearings of the Los Angeles clearinghouse to-day for the week ending Feb. 2, 1903, were \$493,515.00; same day last year, \$474,401.50.

ABOUT FEVERISHNESS.

Talk as we may, and dwell as we may upon the fact that the springing of the boundless prosperity, the increasing good income, the development of the demand and the snoring of apparently unsatisfiable consumption going on, this is a sound and healthy condition of the market.

COMMERICAL.

SHIPPED ORANGE. Advice from Orange County, Cal., dated Feb. 3, 1903, says: "The market for Valencia oranges is very active and prices are being advanced. The market for Valencia oranges is very active and prices are being advanced. The market for Valencia oranges is very active and prices are being advanced."

We are Sole Los Angeles Agents for "Floor-Shine."

Hamburger's

SAFEST PLACE TO TRADE

125 to 127 N. Spring St. Los Angeles

Free Advertisements.

We are the best free advertised house on the coast, and we find it the most profitable advertising we have ever had. In the attempts others have made from time to time in the press to convince the public why we should not advertise in the "Times" our name has been so prominently brought before them that when a man or woman wants to do any trading in Los Angeles the name "Hamburger & Sons" is the first to present itself as to where they should go—and free advertising has brought us hundreds of new patrons and considerably increased our business during the past year or more. A fair minded public takes nothing for granted but insists on having personal knowledge and investigation. Our open, frank and honest way of doing business is commended by all, and the public fully realize that Hamburgers is the "Safest Place to Trade," for "What Others Advertise We Sell for Less."

Corn Painlessly Removed at 25c Each.

Hamburger's

SAFEST PLACE TO TRADE

125 to 127 N. Spring St. Los Angeles

\$1 Wool Waistings yd. 49c.

An assortment of nearly 300 pieces of new 37 inch wool waistings in all of the most popular of the spring colors and combinations both light and dark. The patterns are cord and satin stripes, lace, embroidered and pompadour stripes; some with cream grounds with black stripes, others black waistings in mixed stripes; all of them are in granite, prunella, Henrietta, Louisiana, serge and flannel weaves. None of them are worth less than \$1.00, introductory price.

49c

85c Changeable Taffetas 75c

No better taffetas have ever been offered in this city at the price, possibly none so good. They are 30 inches wide, are in all the new wanted changeable and two tone effects—blue, red, green, tan, gray, brown, lavender, pink, old rose, purple and turquoise. They have a lustrous finish, are an extra firm weave and can not be matched elsewhere under 85c. Introductory price.

75c

"Mothers Friend" Waists

AT NEARLY HALF PRICE

This great sale which started Monday including 800 dozen of these popular waists for boys finds ready response with the mothers of Los Angeles, for certain it is that no waist which has ever been put on the market can equal them at their regular prices. Fortunately we secured the over-production after the season from the factory and are now pricing them to you at nearly half of what they were made to sell for, so if you have boys to clothe this is an opportunity you do not want to neglect.

75c "MOTHER'S FRIEND" SHIRT WAISTS—plaited back and front, with or without collars; the lot includes a line of thirteen waists made in the shirt bosom style; all have patent waist bands, are slightly laundered; materials are all heavy percales and madras in neat patterns and colorings; sizes 4 to 12 years; priced at, choice.

39c

BOYS' 75c BLOUSE WAISTS—New popular sailor style with large collars and separate shields; the materials are heavy percales and madras; neat patterns and colorings; all seams double sewed; sizes range 2 to 8 years; sale price.

50c

BOYS' \$1.00 BLOUSE WAISTS—Sailor styles; large collars to match; all prettily trimmed; there is also a line of mercerized dock in white; made with the new high turnover collar; the popular blouse for dress wear; sizes 4 to 8 years; sale price.

69c

\$2.50 Cameras at Each 50c

Some time ago we offered an assortment of 1000 choice cameras which were made to sell at \$2.50, the selling has been so rapid that the stock has been reduced to but little more than a hundred. They are not all perfect, but in the main are really good; you might call some of them toy cameras, but whatever they are they will be placed on sale as a Wednesday leader without the privilege of exchange at choice.

50c

"Queen Quality" Shoe at \$3

The ever popular "Queen Quality" shoe has more wearers among the English speaking races than any shoe which was ever put on the market. They are in reality fit for a queen as they are in the very best of leathers, newest of shapes, made on most comfortable lasts, and are equal in fit and finish to the highest grade shoe made. We are sole agents for Los Angeles. There is but one price and that per pair.

\$3.00

Post Inventory Sale of Separate Skirts.

A separate dress or walking skirt is a necessary adjunct to every woman's wardrobe, for it prevents wearing out your better costumes and answers many purposes for street wear and for office and store uses. The following values are worthy of your most careful attention.

\$5.00 Dress Skirts at \$3.98.

Assortment includes all wool covert cloths, fine black etamines, Venetians, chevrons; plain or silk trimmed styles; all well lined. Priced at choice.

\$3.98

\$10.00 Dress Skirts at \$5.00.

An assortment of fine black all wool Broad cloth, Cheviot or Etamine skirts; plain, flare or silk trimmed styles; all perfect in fit and well finished. Choice.

\$5.00

\$7.95 Walking Skirts at \$5.98.

This choice line of skirts are in colors green, tan, brown and gray; made in pleated or self trimmed styles, choice.

\$5.98

\$15.00 Dress Skirts at \$10.00.

An assortment of fine broadcloth, Cheviot and Etamine dress skirts in most popular plain and trimmed effects; all of them handsomely tailored and have sold to now at from \$12.50 to \$18.00, priced at choice.

\$10.00

SECOND FLOOR.

Ladies' 50c and 75c Hose at 25c.

The great sale of Monday left us with a number of pairs of odd hosiery. As can be expected the \$1.00 and \$1.50 grades were sold but there are a number of 50c and 75c values left and include all over lace hose, full fashioned; plain blacks and blacks with white feet; also fleeced and balbriggan hose together with boot patterns, ankle and fancy patterns of all description. Every kind as a Wednesday leader at choice, pair.

25c

Marred Books at Half.

A cleanup of all the odd lots and broken lines of books in stock, which will be classed as marred, though some of them are so slightly injured as to be barely perceptible. They are all in good titles, by popular authors, and are sold at one-half or less their regular prices. We will not attempt to enumerate titles, but you will not be disappointed in looking over the lot.

Boys' and Girls' 50c Copyright Books—A goodly number of titles, all of them well bound and printed; priced for this sale at choice.

25c

\$1.00 and \$1.25 Copyrights—Some of the very best titles which have been published in the past year or so, and practically are all new; they are but slightly marred, but priced for this sale at choice per volume.

45c

\$1.50 Copyrights—A selection of about 200 only; not the very latest, but are books that have not been published in any cheaper edition. This will offer an excellent opportunity to replenish your libraries, and also for buyers for public libraries to fill in wanted volumes, as they are all priced for our Marred Book Sale at.

75c

Laces and Allovers.

Assortment of Fancy Laces—In black and white, also lace galleons in butter and Arab shades; nice quality, choice patterns, good 50c values, per yard.

5c

American Plate Mirror—size 7x9 inches, white enamel frame with gilt corners; price.

29c

THIRD FLOOR.

Continuation Sample Sale of Shirtwaists

While the selling has been particularly rapid since it opened on Monday, such a large assortment as 5000 waists takes a few days to dispose of them even by the largest mercantile establishments. Our buyer, who is now in the East, recently purchased this immense line from several large factories, as the over-production of their past season's business, and we are in a position to price them to you at much less than you could buy the materials or would pay for the making alone.

\$1.98 Flannel Shirtwaists at 98c.

In this assortment are medium weight all wool flannel, new pastel shades and black; prettily trimmed with tucks, small buttons; are in solid colors and striped patterns; all made with the new sleeves, choice.

98c
